Kitchen Collection

K05 | Figured Wood Feature Kitchen

Figured wood veneer, silk laminated glass, curved stone forms, fluted island detailing, brushed brass accents, soft integrated lighting

Key Features

01 Figured wood veneer cabinetry

Figured wood veneer brings a soft flowing grain, warm texture, and refined depth to the full-height cabinet system.

02 Curved figured wood range hood

A sculptural curved range hood finished in figured wood veneer creates a warm architectural focal point above the cooking area.

03 Silk laminated glass display cabinet

Glass doors with a silk interlayer and warm LED lighting create a soft, translucent display area for wine, glassware, and collections.

04 Fluted statement island design

The large marble-look island combines a waterfall stone surface, curved corner details, fluted panels, seating space, and refined brass accents.

Curved figured wood range hood with brass trim, framed by softly lit silk laminated glass display cabinets.

Statement island with waterfall stone surface, fluted panel detailing, rounded corners, dining stools, and warm brass accents.

Wardrobe Collection

W01 | Contemporary Walk-in Closet

Melamine finish, silk laminated glass doors, leather island, lacquer accent drawers, built-in watch winders, motorized retractable mirror, soft integrated lighting

Key Features

01 Full-height wardrobe system

Floor-to-ceiling wardrobes combine hanging space, drawers, open shelves, and concealed storage for a clean, practical dressing experience.

02 Silk laminated glass doors

Framed silk laminated glass doors softly filter light while adding privacy, texture, and an elegant architectural layer to the wardrobe wall.

03 Leather dressing island with watch winders

The central island features leather detailing, built-in watch winders, accessory storage, and glass display inserts for a boutique dressing experience.

04 Motorized retractable vanity mirror

An electric lift-up mirror rises smoothly for dressing and makeup, then retracts into the island to keep the surface clean and elegant.

Melamine finish panels, illuminated open shelves, hanging storage, silk laminated glass doors, and display zones create a practical yet elegant closet system.

Built-in watch winders, jewelry trays, accessory storage, glass display inserts, and a retractable vanity mirror bring considered details into daily use.

W02 Dark Wood Dressing Lounge

A warm walk-in closet designed around dark wood panels, bronze glass wardrobes, illuminated hanging modules, and a relaxed lounge bench. The garden-side view and soft lighting create a calm, private dressing environment.

W03 Motorized Boutique Display Closet

A boutique-style wardrobe featuring an electric rotating shoe rack and motorized glass handbag display cabinets. Open shelving, a vanity desk, and illuminated display zones support daily dressing and organized display.

W04 Classic Vanity Closet with Blue Island

A classic walk-in closet with white framed cabinetry, illuminated glass display sections, a built-in vanity desk, and a dark blue dressing island. The vanity area supports makeup and daily grooming, while the island provides drawer storage and a marble-look worktop for accessories and styling.

W05 Classic Display Closet with Glass Island

A classic walk-in closet featuring full-height white wardrobes, bronze glass display cabinets, a central vanity wall, and a glass-top dressing island. Compared with W04, this island is designed for display, with a transparent top for jewelry, watches, accessories, and personal collections.

W06 Full Glass Door Wardrobe System

A full-glass wardrobe design that turns the closet into a clean illuminated display wall. Tinted glass doors keep clothing, bags, and shoes visible while adding a soft sense of privacy.

W07 Mixed Glass, Wood & Open Wardrobe System

A mixed wardrobe system combining glass cabinet doors, solid wood doors, and open display shelves. Glass sections showcase clothing and luggage, wood doors conceal private storage, and open shelves create display areas for bags and accessories.

W08 Modern Grey Dressing Closet System

A sleek grey walk-in closet designed with dark framed display sections, concealed wardrobe doors, a central storage island, and a dedicated vanity area by the window. The calm grey palette, warm interior lighting, and round mirror create a clean dressing environment.

W07 Warm Wood Closet with Rotating Shoe Rack RackSystem

A warm wood walk-in closet with open wardrobe modules, illuminated display shelving, a glass-top central island, and a rotating shoe rack system. The wood-grain finish and soft lighting support organized storage for clothing, shoes, bags, and accessories.

Bathroom Vanity Collection

A curated selection of bathroom vanity designs featuring practical storage, illuminated mirrors, coordinated countertops, and versatile cabinet finishes.

Hardware System Options

Cabinet hardware can be coordinated according to cabinet type, project budget, usage needs, and specified brand requirements.

DTC

Standard Selection / DTC

DTC is our standard cost-efficient hardware option. Selected cabinet hinges and drawer runners include soft-closing function for smoother and quieter daily use.

blum

ALIC

Specified Brand Options / Blum, Salice & More

Blum, Salice, and other hardware options can be coordinated according to project budget, cabinet configuration, functional needs, and specified brand requirements.

Pocket Door Hardware

For cabinet doors designed to slide and tuck neatly into the side pocket, helping keep open doors out of the working area.

Concealed Door System

For storage rooms, pantry cabinets, appliance zones, and integrated wall panels where a cleaner hidden-door appearance is required.

Lift-up/down Support System

For upward-opening and downward-opening cabinet doors, appliance cabinets, folding work surfaces, and selected overhead or display storage applications.

Storage Accessories System Options

Storage accessory systems can be coordinated according to cabinet type, space layout, daily usage needs, and project requirements.

Kitchen Storage Accessories

Pull-out baskets, tall pantry units, corner baskets, spice racks, bottle racks, and under-sink organizers help improve access, visibility, and storage efficiency in kitchen cabinets.

Wardrobe Storage Accessories

Wardrobe accessories such as pull-out trouser racks, hanging rails, shoe racks, jewelry trays, storage baskets, and lift-down clothes rails support organized clothing, accessory, and daily item storage.
